Diploma in humanistic counselling Second year entry option January 2008

If you are looking for a part time course
want to explore a humanistic/ transpersonal approach
wish to extend your previous diploma training
are seeking a supervised placement experience
are wanting an injection of new ideas in your practice
are seeking a course in Norwich/ East Anglia
and have a certificate or short diploma
have some related work experience
are ready for placement practice

then this second year of our diploma could be the one year option for you.
(An optional year three follows, which can provide time to complete the diploma requirements at your own pace, or to proceed to an advanced diploma ready for private practice.)

Our humanistic/ transpersonal philosophy attends to the Self in all its manifestations-body, mind, feelings, spirit & the experience of bodymind. Our course is notable for its recognition of the soul, as the being at the core of the counselling process. We believe this is important in developing the ability to work at relational depth.

For details about times, venue, cost, length of course, and entry requirements for this 2nd year, please contact the course directors

Bee Springwood (0845 345 4467)

or **Jacky Walker (0845 456 0985)**

or see the information sheet on www.swaffham.net/counselling.

NB This is a small course with limited second year places for those Accrediting through Prior Learning so early enquiries are encouraged.

Planning ahead. The next start date for the complete course is January 2007, for which applicants will need to have Certificate level training or equivalent. (We can advise on possible certificate courses to do now).
